

**COLT**  
ARCHITECTS

Matteo Caimi and Pierluigi Colombo

In 2021 Matteo Caimi cofounded with his childhood friend Pierluigi Colombo, COLT Architects, a dynamic architecture and design firm based in Milan.

With a shared vision for innovative design and a commitment to excellence, COLT Architects bring a wealth of experience and creativity to every project that they undertake.

They envision spaces that transcend the ordinary in the fields of; ***Architecture, Interiors, Art Direction and Product Design*** including ; Residential ,Commercial and Office design.

Also,their part of vision is to work with ***"Multifunctional Spaces"*** to increase the marketability and the efficiency of the projects by expanding the traditional layouts through new flexible design concepts.

**Matteo Caimi** studied and graduated in Architecture from the Polytechnic University of Milan, becoming a Member of the Order of Architects of Milan from 1998.

After graduating, he joined the architecture firm C&A and became a partner, after many years of apprenticeship within the company. Alongside with the Italian activity, C&A+Partners developed a series of residential and showroom projects in several American cities, such as New York, Philadelphia, Miami, Atlanta, Chicago, Los Angeles and Phoenix.

Over the years the design practise has ranged from the residential sector to the development of whole concepts for schools, hotels, sport facilities, industrial complex, banks, shops, showrooms, exhibitions, temporary installations and yachts.

Often the Studio has even been called to take care of the interiors, developing solutions that both use standard and custom designed pieces within each project.

Beginning from 2008, Matteo Caimi also plays the role of Director of Architecture at the Atlanta Design Festival.

From 2012 to 2017, after managing the design and the construction, Matteo Caimi became Art Director of Studio 3125, an Interior Design showroom with a purely European imprint, in Tempe, Arizona.

In 2018 Matteo Caimi has constituted MC Architecture & Design, continuing the path started at C&A, mainly dealing with residential architecture and interior design, alternating between Milan and the United States.

Born in Milan in 1969, **Pierluigi Colombo** studied Architecture at the “Kunst Akademie” of Copenhagen and at Polytechnic University of Milan, where he graduated in 1993. He collaborated as an Architect with the BDP Studio of Berlin between 1994 and 1995.

Pierluigi Colombo started developing the idea of multifunctional products and their design since 1996, when he became Art Director & Designer at Clei s.r.l., the world’s leader in transformable furniture. Their main research concerns product design and corporate identities, alongside with exhibition stand designs for global and local fairs and showrooms.

Colombo believes that understanding the potential of interior spaces is key and design must integrate multifunctional solutions in order to reach the maximum space efficiency.

With over 20 years of experience in global architecture and design, Colombo’s archive and portfolio are rich with solutions that fit every culture and lifestyle Including interior architecture, exhibition design at the most important international fairs and museums, communication and product design, (Interior innovation Award 2012, Red Dot Design Award 2013).

Among the Interiors Design Projects: the extension of a Penthouse in Mariano Co, a Penthouse in Varazze, the project of the Micro-Unit “LaunchPad” for the Exhibition “Making Room: New Models for Housing New Yorkers” at the Museum of the City of New York in 2013, the design of the apartment “The Open House” for the Show “Making Room, Housing for Changing America” at National Building Museum of Washington in 2017.
